

Subject: Asbestos Hazard Emergency Response Act (AHERA)

Dear Parents, Teachers, and Staff:

In accordance with regulations of the Environmental Protection Agency (EPA), we are required to notify parents, teachers and other employees each year of the availability of the Asbestos Management Plan (Management Plan) and the response actions we are taking to maintain asbestos containing materials in our school.

An updated Management Plan has been prepared for the school to ensure the proper maintenance and responses for asbestos-containing materials. Appropriate response actions have been and will be taken to ensure the asbestos is maintained in good condition.

A periodic surveillance of the school has occurred every six months since the original inspection. Additionally, formal re-inspections were completed every three years since the original inspection. Copies of these reports are on file in the main office of the school.

Custodians and maintenance workers have been instructed on the health effects of asbestos and the importance of maintaining this material in good condition during their normal day to day activities.

No asbestos abatement activities are scheduled at this time.

If you wish to review the Management Plan, a copy is located in the school office.
